Beautifully updated one-story home on an exceptional 16,676-square-foot lot in the established Townewest community. Inside, you'll find an open-concept design featuring a spacious family room with a striking painted brick fireplace, custom floor-to-ceiling built-in bookshelves, luxury vinyl plank flooring, abundant natural light, a renovated kitchen with granite countertops, and beautifully updated bathrooms. Step outside to your own private retreat with a park-like backyard shaded by mature trees, including producing pecan and lemon trees. With room to entertain, garden, add a pool, or create the backyard you've always envisioned, the possibilities are endless. Two storage buildings provide added flexibility for hobbies, tools, or extra storage. A rare opportunity to own one of the largest lots in the neighborhood with the perfect blend of modern updates, character, and outdoor living.
